It covers the AgilePM® certification by APMG and the DSDM Consortium that has been created to sit alongside PRINCE2® as an approach to project management. The course is equally divided between the theory of the new wave of agile project management and the practical experience of the techniques and disciplines involved.

This course is delivered virtually through the GTA, tutor led in real time.

Please note that if this course is being delivered face to face the deadline for applications is 10 days prior to the course start date.
