Course Overview

This online course focuses on the practical aspects of effective change management as it relates to change and the individual, change and the organisation, communications and stakeholder engagement and change management practice. This is an intense course that involves both pre-course and evening study during the course. The course is entirely complementary to formal portfolio, programme and project management approaches (such as MOP®, MSP®, and PRINCE2®) but knowledge of these approaches is not a pre-requisite for attendance.

This course is delivered virtually through the GTA, tutor led in real time.

Content

This course is offered as either a 3 day Foundation or a 5 day Practitioner course, and is a mixture of input and practical sessions, delivered by an APM (Association for Project Management) Group approved trainer with practical experience of change management.

Through study of selected sections of The Effective Change Manager's Handbook, the course provides a practical and informative pathway of understanding through the maze of principles, theories and the practice of change management. It gives a solid platform for clear best practice thinking and the application of a range of proven change management tools and techniques for achieving successful change.

Delegates should spend approximately 4-6 hours studying the pre-course material to be well prepared for the course.

The full Foundation and Practitioner course covers the four key areas of the APMG examination syllabus:

- Change and the Individual
- Change and the Organisation
- Communication and Stakeholder Engagement
