Course Details

Price

£200.00

CPD Points

75.00

Length

3-6 months self-study (up to 75 CPD hours at 4-8 hrs a week). Start Date: Anytime.

Course Overview

This six-month (approx. 75 hour) Certificate in International Insurance Management is a new certificated qualification developed by the Sagacious Group of experienced insurance professionals in conjunction with the Guernsey International Insurance Association (GIIA) and the GTA.

This self-study qualification has been designed to give candidates actionable, practical knowledge of all facets of the Guernsey international insurance industry. Candidates will get to grips with a variety of topics relevant to the Guernsey international insurance industry from governing laws, governance and basic principles to the specifics of captive insurance and index linked securities.

The Learning Objectives and Course Materials are freely available on the GIIA website: GIIA | Guernsey International Insurance Association

To obtain the certificate to formalise and evidence your learning, you can choose to sit a 50 question multiple choice 1 hour exam.

Registering for the exam will also give you access to:

- Guernsey based mentors who are available to provide delegates with an experienced practitioner to address questions of a technical and interpretive nature on the Certificate's course materials.
- An AI-powered learning assistant to support your studies throughout this programme. The **GTA GIIA Tutor,** powered by ChatGPT, draws only on the course materials and is available 24/7 to help answer your course-related questions, clarify concepts and guide your revision.
- Sample exam questions.

Content

This qualification covers a broad range of insurance topics specific and relevant to Guernsey, including:

- Captives including domiciles, feasibility, initial decision making at set-up, formation and licencing and exit strategies
- Guernsey Insurance Law including the regulatory environment in Guernsey
- Calculating solvency
- The role of the Insurance Manager
- Underwriting – General Business and Employee Benefits
- Credit Ratings
- Insurance Policy Administration
- Reinsurance Protection
- Claims and Reserving
- Accounting
- Investments and loans
- Taxation
- Compliance
- Governance, Conduct and Ethics
- Professional Advisors and Services including bankers, actuaries, auditors, asset managers, brokers and claims handlers.

- The role of the Company Secretary
- Index-Linked Securities
- Long term business
- Pension longevity hedging
- Managing General Agents and Delegated Authority Underwriting
- Commercial General Insurance

Learning objectives and the course material can be found via the link to the GIIA website here.

Benefits

This course will help those working in the insurance sector to extend their knowledge of the subject, better understand their roles and progress their careers whilst providing course material that will facilitate learning.

After undertaking the course, delegates will be able to identify key areas of the Guernsey international insurance industry and have a grasp of how they work and fit together.

For those not working in the sector this course will provide a sound understanding of how international insurance works, and in particular how it operates in Guernsey.

Prerequisites

The Certificate is open to anyone who is pursuing a career in the Guernsey insurance sector or who is interested in doing so. The course is pitched at a level 3 standard and the content of the programme requires students to possess:

- a sound educational background; and
- good written English skills.

Assessment

Candidates will undertake a 1 hour, 50 multiple choice question, examination at the completion of their self-study.

Delegates participating in the Guernsey Certificate in International Insurance Management can claim up to 75 CPD hours towards the CII member CPD scheme. The following link contains further information on the CII CPD scheme **here**.

Next Steps

The Learning Objectives and course Materials are freely available on the GIIA website: GIIA | Guernsey International Insurance Association
