Risk Management Fundamentals (RMF) from Airmic

Course Details

Price

£495.00

Length

Two days in-person (9am – 4pm) or three half days online (9am – 1pm)

Course Overview

The **Airmic** Risk Management Fundamentals (RMF) course will equip you and your organisation with the essential knowledge and skills to navigate the increasingly complex world of risk.

Delivered by **Airmic** (The Association for Insurance & Risk Managers), the course is designed for those who have just entered the risk management profession or those in different professions, who would like to know more about understanding and managing risk.

The course is available to **Airmic** members and non-members from any sector or organisation and will be delivered as an open and in-house basis.

Spaces are limited for each course.

Contact **Airmic** directly to find out more - <https://rmf.airmic.com/>

Flexible learning that works for you

Content

Delivered by leading risk professionals across two days (in-person) or three half days (online), and supported by an online platform, delegates will experience six interactive modules packed with the latest thinking on risk management, coupled with access to practical resources including:

- a comprehensive course workbook
- a case study delivered by an Airmic member
- risk tools, techniques and templates
- a unique insight into the relationship between risk and insurance
- a directory of useful terms
- recommended further reading and resources

Module One: The Evolution, Language and Business Rationale for Managing Risk

Module Two: The What and the Why of Managing Risk

Module Three: The Risk Management Framework

Module Four: The Risk Management Process

Module Five: The Relationship between Risk Management, Governance, Assurance & Sustainability

Module Six: Risk in Today's World, Tomorrow's World and the Real World

By the end of the course, you will be able to demonstrate how risk management can be used to help inform decisions in support of the objectives and strategy of your organisation through:

- providing awareness and knowledge about risk and how it is managed
- navigating the universe of risk and risk management
- appreciating the need to collaborate internally and externally when managing risk
- applying risk management principles to your organisation
- describing the relationship between managing risk and insurance
- exploring the concept of emerging risks and other developing risk practices with examples
- engaging with a live organisational case study delivered by a senior industry professional and Airmic member

Benefits

The benefits of attending the Risk Management Fundamentals (RMF) course are many, and include:

- improve your understanding of risk and your credibility with colleagues and business leaders.
- gain access to a range of helpful practical risk management tools, templates and techniques.
- network with fellow professionals and peers.
- understand the practical application of the course content through a live organisational case study.
- claim up to 11 hours Continuing Professional Development (CPD).
- receive a Certificate of Completion and Digital Badge.

Assessment

Achievement is assessed by a 60-minute online exam taken at your own pace within seven days of completing the course. Your success will be recognised through a certificate of completion and digital badge.
